

WELLINUS

Collagen full of *Pomegranate*

Easy to Eat
Collagen Jelly

High in
Antioxidants

Completely
Additive Free

What Kind of Collagen Are You Taking?

We do not add a single drop of water so you will experience the intense flavor of pure fruit concentrate.

Our texture is delightfully chewy
unlike other collagen jellies.

Additive Free Collagen

It's rare to find a collagen that allows you to enjoy a fresh taste without any artificial flavors. WELLINUS Collagen full of Pomegranate & Mango contain no additives for flavor, scent, or color.

One stick of WELLINUS collagen jelly contains 1250mg of low-molecular fish collagen of less than 500 daltons.
